We are very pleased to inform you that our brand new Citation Sovereign, HB-JIG is now also available for your charter requests.

The aircraft is based in Athens/LGAV and Zurich/LSZH which are ideal locations for all flights from/to the eastern part of the Mediterranean Sea, the Middle East, North Africa and of course all Europe.

With its maximum passenger capacity of 8 seats, its wide and comfortable stand-up cabin of 1.73m, its 6.2m cabin length and the biggest-in-category baggage area, this aircraft offers significantly more comfort than any other aircraft in its category. A cabin attendant is on board to take care of our passengers' needs during flights and assure perfect service.

The advanced aerodynamics, the exceptional short-field capability and the superior fuel-efficiency ensures the aircraft's amazing performance.

This new aircraft complements our existing charter fleet of 2 Falcons 7X, 1 Falcon 900EX, 1 Falcon 2000EX and 1 Raytheon Hawker 800.

Our Charter-Team is at your full disposal 24 hours / 7 days a week to attend to your request or provide any information. Please also ask about our very attractive prices on our fleet.
